//

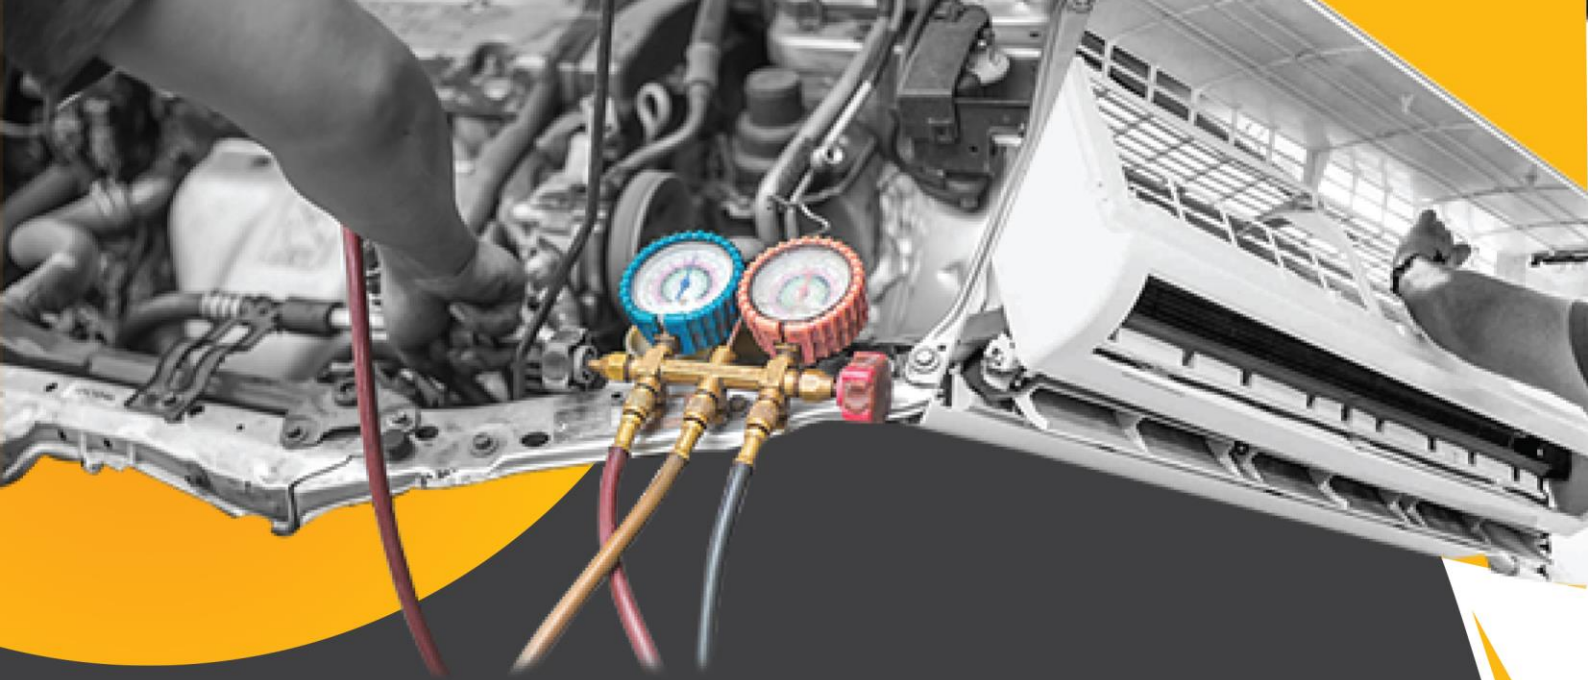

It has been 14 years since we started the company. And must say that we have seen both the good and challenging time during these years of operation.

We have been very fortunate to have loyal and competent employees, supportive dealers, understanding suppliers and above all, reliable bankers Who support us all the way. With these qualities blended together, sound management, clear direction and people-oriented approach, we have sailed through over troubled water many a time without much difficulty.

As a company, we will strive for higher goals and continue to provide good career path and greater benefits to the employees. We shall continue to provide all forms of trainings in self- development programmed not only to our staff but to our business partners/associates and dealers alike. We are a strong believer in training for advancement.

//

VISION

Be the source of the premium solution provider in the engineering industry.

MISSION

Be the center of sustainable development in all kinds of civil & engineering services, product creation, with the manipulation of many different traditional methods required to change.
